

# Using AP Images @ Your Library

1

\*Click the link to the library's digital resources.  
\*On the right hand side, under Multimedia Resources", click *AP Images*.  
\*Log in using the Library's user name and password

2

Keyword search the photo captions using the search bar.  
Also, check out your options for "limiting," using the pull down bar.

3

AP Photo only searches the captions that appeared underneath the photo when it was originally published.  
**IT DOES NOT SUBJECT SEARCH!**

Think through what words should appear under the graphic that you wish to use.

## Working with the images...

1

Click a photo to see the details before downloading it.

2

Click the Download link to save the photo to your desktop or flash drive.  
**DO NOT USE QUICK SAVE!**

3

From the download page click the icon after checking that the correct photo is showing.

4
